ABOUT

# NORTH WEST AQUARIUMS

We are a company based on merseyside which offers aquarium installation and maintenance packages to businesses across the region and north west.

Our aim is to bring planted glass box ecosystems to make businesses more memorable and improve the mental health of their employees resulting in increased productivity and a reduction in absences.

Our packages are designed to suit your companies individual needs and circumstances and enable you to have an office aquarium without the fuss as we take care of everything.

All you need to do is occasionally feed the fish!

# MENTAL HEALTH BENEFITS

There have been studies and research into the health benefits of keeping an aquarium

These include but are not limited to:

- A significant reduction in blood pressure to the elderly
- Shown signs of calming behaviour in children with attention difficulties
- Calming effect on dental patients
- A study in a university suggested bright coloured fish can reduce disruptive behaviours and improve eating habits in patients with alzheimers
- Stress reduction – especially helpful in stressful environments
- Improved sleep quality
- Reduce anxiety
- Relieve depression and other mental health challenges

# COMMERCIAL PACKAGES

## LOOKING FOR SOMETHING DESIGNED AROUND YOU?

If our all in one packages aren't for you and you want a specific size, we can get in touch with an aquarium designer on your behalf who can design and install the aquarium.

You can then let us take care of the ongoing maintenance with a package to suit your specific needs.
